PLEASE NOTE:

If you experience any difficulties please make sure that you using correct image format (JPG or PNG) and the file size doesn't exceed 2 MB.

If this doesn't work, please try using another browser or another device.

If after uploading the documents your verification request was rejected please make sure that you read the notification with the reason of the rejection.

The most common reasons for rejection are: poor image quality, the required information is in not in the photo, the information in the submitted documents doesn't correspond with the data specified in the personal area, expired documents.

The verification process and bonus accrual are fully automatic. For your convenience, we have prepared detailed instructions, which can be accessed in your Personal Area. Please note that AMarkets customer support does not provide consultation on obtaining the bonus funds.

If the bonus isn't displayed in the "Promotions" section, it means that your country is not eligible for this bonus or that you have already used it.

For more information please go to the bonus offer page on our website and read the bonus terms and conditions carefully.

You can receive the bonus only once within the same account. In the event that additional accounts are discovered for the purpose of obtaining the bonus or any other fraudulent activity, all Client's accounts will be blocked, and the profit obtained from trading the bonus funds will be canceled.

HOW IT WORKS?

- * Trade using the bonus funds within 30 days and earn real money.
- * Profit, received from trading using the bonus funds will be available for withdrawal when the total profit reaches at least 15 USD and the required trading turnover of at least 3 lots is achieved. Calculations of the trading turnover will include only trades with the trading time of least 5 minutes, the minimum price change for each trade must be at least 10 pips.
- * You can access your bonus account and withdraw the profit (not the bonus itself) only using the widget because the bonus account is not listed in the regular withdrawal form.
- * You can't add your own funds to the Bonus account. If you want to start trading with your own funds, open a live account in your personal area and deposit it in any convenient way in «Deposit/Withdrawal» section.
- * Please note that the bonus account will be automatically terminated upon the first withdrawal.
- * To withdraw profit you need to close all your trades first.
- * At the end of the 30-day period, the bonus account will be blocked and the earned profit will be then credited to the Wallet balance.
- * Your bonus status will be displayed in the widget in the "Promotions" section of the Personal Area.

Enjoy your first trading experience with AMarkets!
