

## Instructions for Jeton wallet registration

AMarkets LTD,  
Suite 305, Griffith Corporate Centre 1510, Beachmont,  
Kingstown, Saint Vincent and the Grenadines  
[info@amarkets.com](mailto:info@amarkets.com)

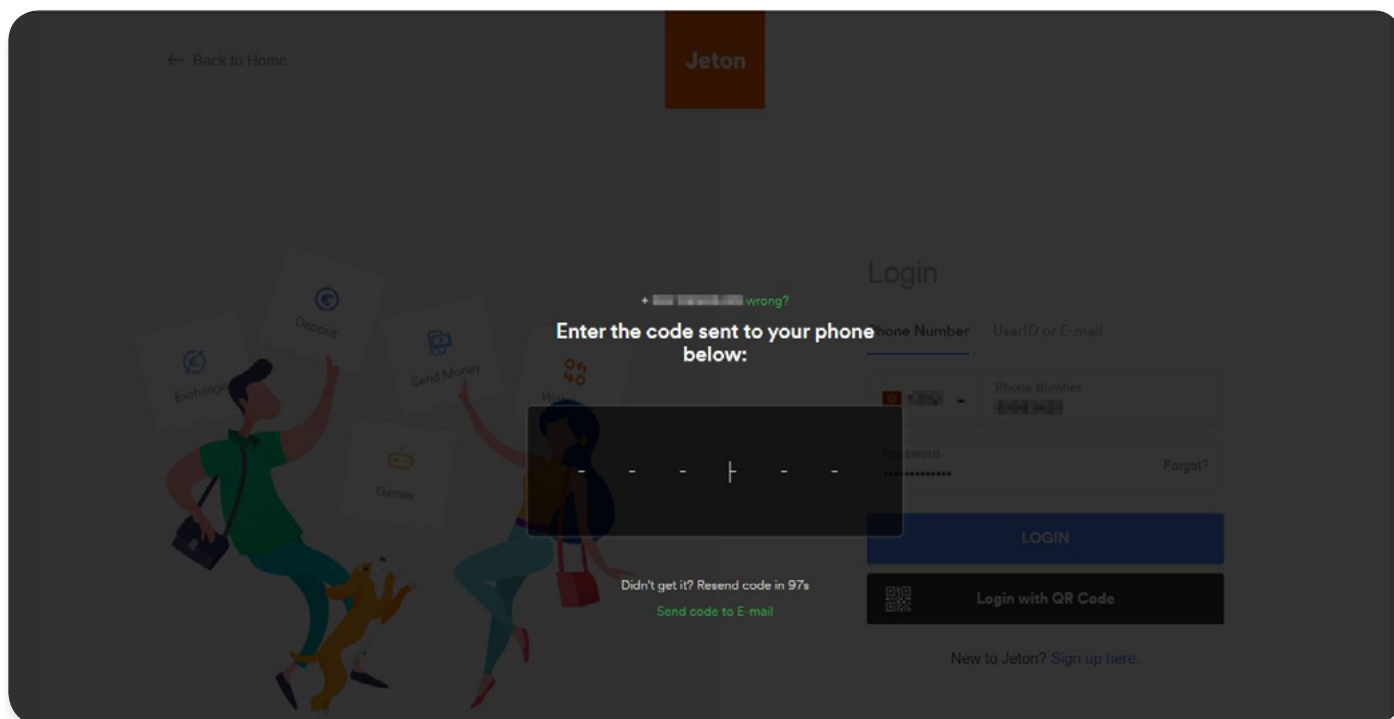

To create an account in Jeton payment system, please follow the link  
<https://www.jeton.com/>.

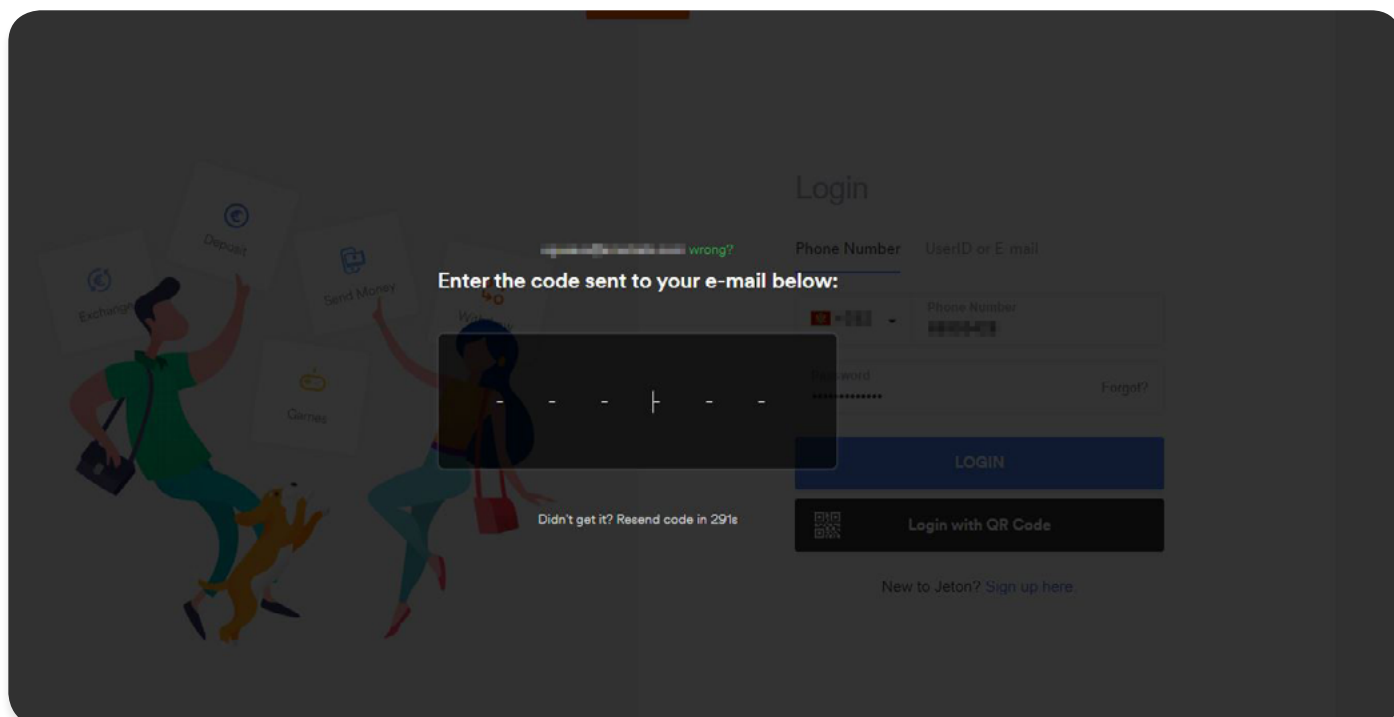

Click on the **Create Account** button and complete the registration form. Please make sure that you fill in all the fields: phone number, email address, password, first name, last name and date of birth. Next, read the Terms and conditions and check the corresponding box. Click **Sign up**.

When the pop-up window appears, enter the code sent to your phone number specified during the registration. If you are having trouble receiving the verification code in SMS, you can request to send the code to your e-mail address. To do this, click **Send code to E-mail** (highlighted in green)

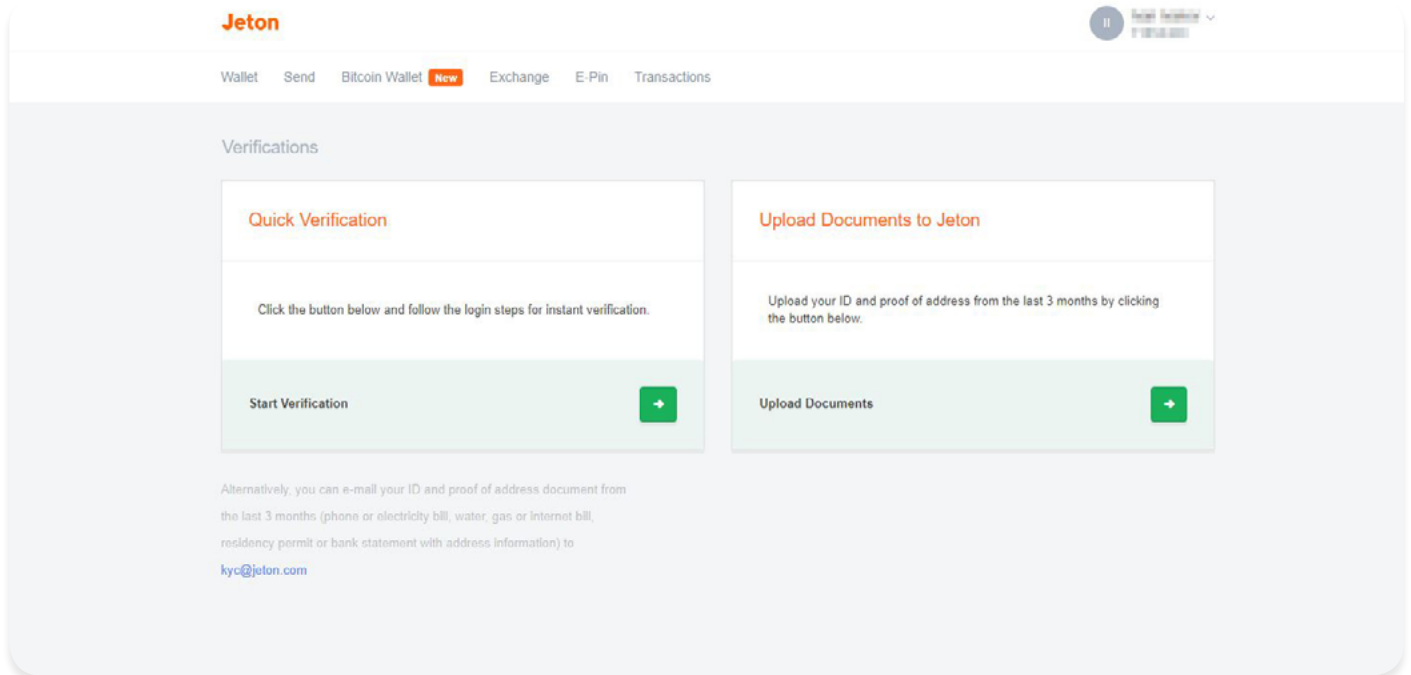

Please, check your email and enter the code you received from Jeton system.

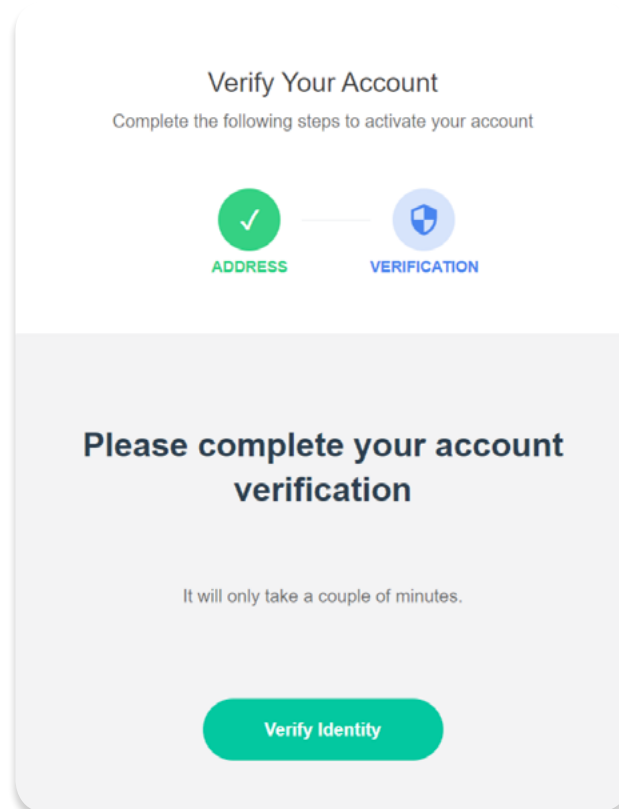

Click **Login** to activate your account in the window that appears.

After you have completed all the required steps, you will be redirected to the main page of your Jeton account.

Your account is not verified at the moment. To pass the verification procedure, click the **Verify now** button in the yellow field. The verification involves two steps: ID Verification and Address Verification.

For quick ID verification, click **Start verification**.

When a window appears, click on the **Verify Identity** button.

### Verify Your Account

Complete the following steps to activate your account

✓  
ADDRESS

—

🛡️  
VERIFICATION

< back

### Verify your identity

Select the type of document you would like to upload

Face photo page

Passport

>

Front and back

Driver's License

>

Front and back

Identity Card

>

Select the document you would like to provide for verification. Prepare the selected document - at the next step you will need to take a picture of the document using your webcam. Then, you will be asked to take a selfie. Once you complete these steps, the following window will appear.

### Verify Your Account

Complete the following steps to activate your account

✓  
ADDRESS

—

✓  
VERIFICATION

Your identification documents are begin reviewed.

Back to Wallet

By clicking **Back to Wallet**, you will able to go back to your account and see the result of your verification.

The screenshot shows the Jeton website's verification interface. At the top, the Jeton logo is on the left, and a user profile icon with the name 'John Doe' is on the right. Below the header is a navigation bar with links: Wallet, Send, Bitcoin Wallet (marked 'New'), Exchange, E-Pin, and Transactions. The main section is titled 'Verifications' and contains two side-by-side panels. The left panel, 'Quick Verification', instructs the user to click a button and follow login steps for instant verification. It features a 'Start Verification' button with a green plus icon. Below this, an alternative method is described: emailing an ID and proof of address document to [kyc@jeton.com](mailto:kyc@jeton.com). The right panel, 'Expiry Date', has two date pickers. The first shows '20' for the day and 'May' for the month. The second shows '2024' for the year. At the bottom of this panel is a 'Continue' button with a 'Skip' link and a green plus icon. The footer contains links for FAQ, About, Terms And Conditions, Privacy Policy, and Support, along with the company address: ©2019 Urus London LTD | 131 Finsbury Pavement, London EC2A 1NT United Kingdom. A language dropdown menu is set to 'English'.

This screenshot shows the 'Address Verification' step of the Jeton verification process. The layout is similar to the previous screen, with the Jeton logo and user profile at the top. The navigation bar remains the same. The 'Verifications' section now features a 'Quick Verification' panel on the left (identical to the previous screen) and an 'Address Verification' panel on the right. The 'Address Verification' panel instructs the user to choose a document type to upload, noting that documents must be from the last 3 months. It provides three options: 'Water, gas or internet bill' (selected with a blue checkmark), 'Residency permit', and 'Bank statement'. At the bottom of this panel is an 'Upload Documents' button with a green plus icon. The footer and language settings are consistent with the previous screenshot.

The next step is the address verification. Upload one of the required documents and click **Continue** to proceed.

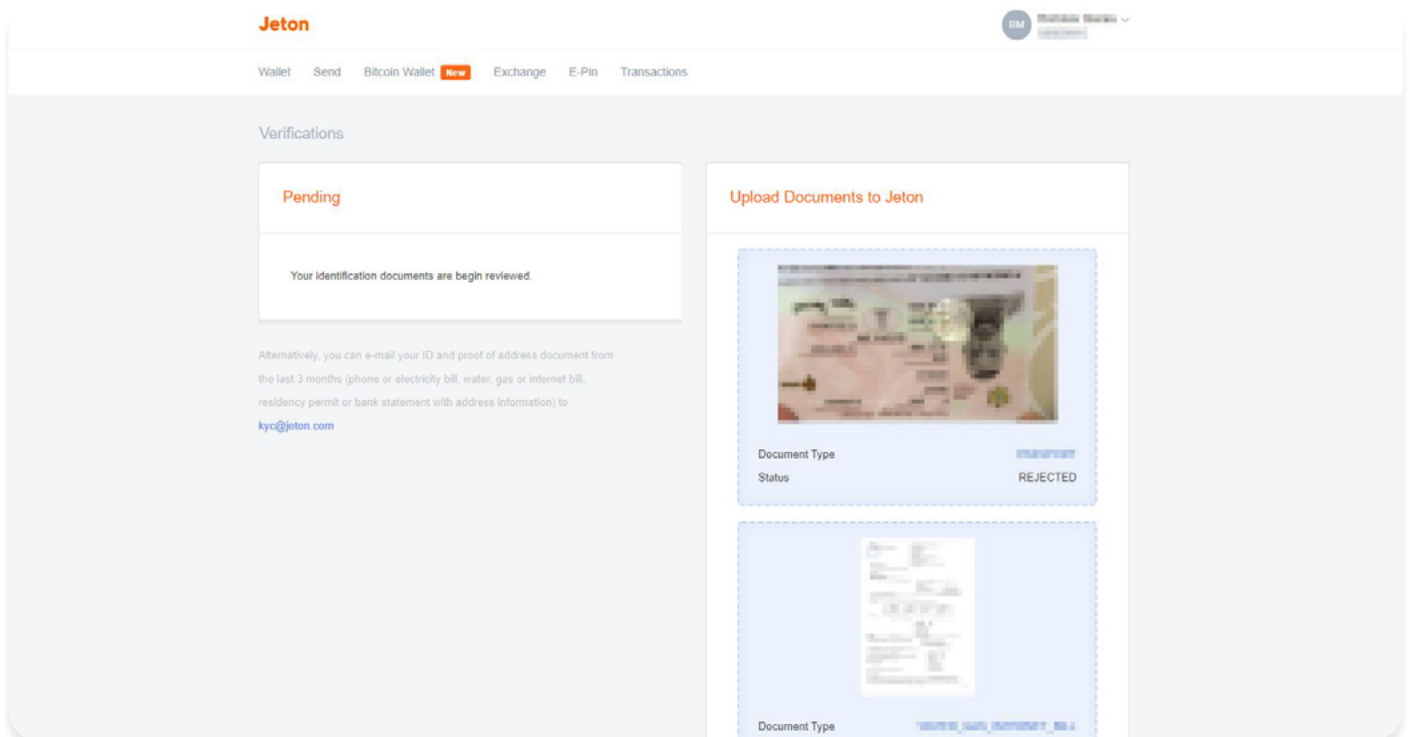

The screenshot shows the Jeton KYC verification interface. At the top, the Jeton logo is on the left, and a user profile icon with the name 'RAUL RABINOV' is on the right. Below the header is a navigation bar with links: Wallet, Send, Bitcoin Wallet, Exchange, E-Pin, and Transactions. The main section is titled 'Verifications' and contains two primary options: 'Quick Verification' and 'ID Verification'.

**Quick Verification:** This section includes a sub-header, a message 'Click the button below and follow the login steps for instant verification.', and a green 'Start Verification' button with a right-pointing arrow. Below this, an alternative method is described: 'Alternatively, you can e-mail your ID and proof of address document from the last 3 months (phone or electricity bill, water, gas or internet bill, residency permit or bank statement with address information) to [kyc@jeton.com](mailto:kyc@jeton.com)'.

**ID Verification:** This section features a large dashed blue box for document upload. Below the box is a 'Continue' button and an 'Upload Again' button with a right-pointing arrow.

Once you upload all the documents, they will be submitted for processing and will have the status **Pending**.

This screenshot shows the Jeton KYC verification interface after document upload. The user profile icon now shows 'RM'. The 'Verifications' section now includes a 'Pending' status card.

**Pending:** This card has a sub-header and a message: 'Your identification documents are begin reviewed.' Below this, the same alternative email submission method is provided: 'Alternatively, you can e-mail your ID and proof of address document from the last 3 months (phone or electricity bill, water, gas or internet bill, residency permit or bank statement with address information) to [kyc@jeton.com](mailto:kyc@jeton.com)'.

**Upload Documents to Jeton:** This section displays two uploaded documents. The first document is a photo of a person's face and ID card, with a 'Document Type' field and a 'Status' field showing 'REJECTED'. The second document is a scan of a document, with a 'Document Type' field.

If for some reason you are unable to upload the documents to the website <https://www.jeton.com/customer/verifications>, you can email them to the technical support department at <https://www.jeton.com/customer/verifications> (see the email address in the screenshot above). Technical support specialists will then upload your documents to your account. When both verifications are successful, your wallet will be verified and the orange Unverified icon will be changed to the green Verified badge.
